

Casa Catalog - Release Version 2.0

New Features:

- Homepage with working image carousel added
- Mockup of functional inventory and product list management page added

Enhancements:

- Registration Page will direct users to the Login Page once successfully registered.
- Login Page will direct to the home page once successfully logged in.
- Error messages will be displayed on both pages if a login or registration has been unsuccessful.

Bug Fixes:

- Fixed error where registration database was not correctly adding or creating new users.
- Fixed error where login page was not correctly directing users to registration page if login failed
